

Authorised Person AP LV (MOD)

Course Code: MODLV AP

Introduction

Our MOD Authorised Person AP LV (MOD) course covers essential requirements of safe working procedures on High Voltage and Low Voltage electrical equipment and systems, as required by the Electricity at Work Regulations 1989, and those working to the MOD Safety Rules and Procedures JSP volume 3 chapter 3.

It focus's on the practical and procedural aspects of safe working on electrical equipment.

Content

Course Content:

- Statutory safety regulations
- Mandatory safety regulations
- Defence Estates Electrical Safety Rules and Procedures
- LV distribution switchgear and equipment
- Application of electricity safety regulations
- Issue of Permit to Work and Sanction to Test
- Cable location and identification
- Operating records and documentation

Aim

Attendees will learn the essential requirements of safe working procedures on LV equipment as required by the Electricity at Work regulations and Defence Estates JSP375 Safety Rules and Procedures

Participants

Anyone who wishes to begin / continue the process of authorisation or wishing to return to the role, who

require a more in depth refresher or personnel who have been nominated for appointment as Authorised Persons (Electrical) with respect to Low Voltage distribution systems.

Certification

Candidates and their sponsor will receive a report to support the authorising officer of the company in making a decision whether to appoint the candidate for operational duty.
