

Authorising Engineer Training Course

Course Code: AUTHENG

Introduction

THIS COURSE CAN BE STUDIED NOW ONLINE – [CLICK HERE](#)

Our Authorising Engineer Training course is for engineering staff with or are being considered for the responsibility for the implementation, administration, monitoring and management of engineering Safe Systems of Work and who are to be appointed as an Authorising Engineer. Which may include the requirements for assessment and appointment of operational staff implementing and working with these systems.

The authorised person training course will explain qualities required and explain a typical proactive approach to the Authorising Engineers role.

It will also explain to delegates the knowledge required to carry out Authorising Engineer duties in support of statutory health and safety compliance.

This courses is suitable for Health Authorities, Ministry of Defence and Commercial Organisations.

Please note, this course can now be delivered as virtual training via zoom.

It is also available to complete online at:

online.sestrainingsolutions.co.uk.
