

Abrasive Wheels Course

Course Code: ABRA

Introduction

Our Abrasive Wheels training course provides training in the safe use of abrasive wheels in compliance with the requirements of PUWER and HASAWA 1974.

This course can be completed at our training centre or we can deliver it onsite.

Our ABRASIVE WHEELS COURSE is suitable for all operators, supervisors and managers, who as part of their working duties select, mount, use or inspect abrasive wheels. Covers all types of cutting and grinding application (Angle Grinders, Chop Saws, Bench/Pedestal Grinders, Disc Cutters, Cut-Off Saws, etc).

Aim

To ensure employers and employees understand and can demonstrate the safe use of abrasive wheels for all types of cutting and grinding applications: Stihl Saw, Angle Grinder, Chop Saw, Bench/Pedestal Grinder, Surface Grinder, Cylindrical Grinder etc.

Our most popular option for those in the construction industry is this half day course (which can be conducted on your site) this course is better suited to operators, who only operate hand held/portable machines, bench or pedestal grinding machines.

Participants

Operatives, Supervisors and Managers who use or are in the proximity of Abrasive Wheels, who operate hand held/portable machines, bench or pedestal grinding machines.

The course will benefit those who work in the environment where abrasive wheels are used.

Candidates should be at least 16 years old and each candidate must Supply all their own PPE.

Certification

Candidates who successfully pass the course will receive a certificate of competency in the awareness and use of abrasive wheels.
