

LV Armoured Cable Termination And Joints Course

Course Code: CJC1

Introduction

The LV Armoured Cable Termination And Joints Course is for candidates to develop the practical skills and knowledge to prepare, complete straight joints and terminate SWA - Steel Wired Armoured Cables.

Private distribution networks need to be maintained correctly and safely. Our jointing course will assist you in gaining an understanding for the correct termination and jointing of low voltage pvc armoured cables.

MATERIALS

No need worry about additional costs, everything is included and provided for you at no extra cost.
