

CITB Health & Safety Awareness Training Course

Course Code: CITBHSA

Introduction

The one day CITB course is for those who require the CSCS Green Labourer Card to get on a construction site, or a basic Health & Safety Awareness Qualification for their chosen employment.

This one-day CITB Health and safety awareness (HSA) course is designed to aid the understanding of potential hazards the construction worker may face on site.

It provides a practical summary of health, safety, welfare and environmental issues. It identifies the delegate's responsibilities for looking after themselves and others, outlines the employer's duties and explains what should be done if the worker thinks that anyone's health and safety is being put at risk.

The course is an ideal foundation for those wishing to obtain an industry site card.

It is also an alternative route to the QCF Level 1 Award in Health and Safety in a Construction Environment for the CSCS Labourer Card.

The course provides health and safety awareness and is endorsed by Build UK as standard training for all operatives on site.
