

Emergency Response and Rescue for Safety Accompanying Persons

Course Code: CJCRH

Introduction

Emergency Response and Rescue for Safety Accompanying Persons is often misunderstood, poorly communicated for operative safety. This course will ensure everyone knows how to react, respond and rescue colleagues when incidents happen. This Emergency Response and Rescue for Safety Accompanying Persons will ensure accidents are not turned into serious incidents that could have been avoided.

Rescue hooks are an essential electrical safety item for the retrieval of victims from electric shock. Electrical safety rescue hooks protect the rescuer against electrical shock and the injured from additional injury caused by poor techniques of handling the rescue.

They are commonly found in electrical substations, and switchrooms however they can cause significant harm if not used correctly.

Content
