

First Aid at Work Renewal

Course Code: FA2

Introduction

COURSE OUTLINE

This course is for holders of a current FIRST AID AT WORK qualification which is due to expire, or where candidates would like to refresh and update their first aid knowledge, and revalidate their qualification for a further three years.

If someone has previously held the First Aid at Work qualification but it has expired, please consider the following rules for attendance...

- * A First Aider can renew their FAW qualification by attending a two day renewal course without question, if it's WITHIN ONE MONTH of the expiry date.

- * If the First Aider has lapsed by MORE THAN ONE MONTH, BUT NO LONGER THAN THREE MONTHS, they can requalify by attending a two day course providing 'special considerations' have been applied (see below).

Special considerations are...

- * A signed letter from the employer to Edenfield stating the reasons why in their opinion, the First Aider is suitably experienced to attend a two day course and does not require a full three day FAW course; OR

- * A decision is made by Edenfield after discussions with the employer, or the First Aider, and deciding that their previous experience is sufficient to attend a two day course.

If the First Aider has lapsed beyond three months then they must attend a FULL THREE DAY COURSE.

The important thing to remember is that as SOON AS THE CERTIFICATE EXPIRES, THE FIRST AIDER IS NO LONGER CONSIDERED COMPETENT TO ACT AS A FIRST AIDER IN THE WORKPLACE which may leave the employer with a shortfall in first aid provision. Therefore, it would be prudent to arrange their requalification before they expire.

Content

Legalities, responsibilities and reporting

Assessing the situation

Heart attacks

Dealing with an unresponsive casualty

Eye injuries

Fractures and spinal injuries

Choking

Control of bleeding

Chest injuries

Diabetes

Shock (including Anaphylaxis)

Asthma

Head injuries

Poisoning

Sprains and strains

Burns

Epilepsy

Resuscitation (including the use of a defibrillator)

Bandaging

Aim

*

AIMS AND OBJECTIVES

- Understand the role and responsibilities of a first aider
- Be able to assess an incident
- Be able to conduct a secondary survey
- Be able to manage an unresponsive casualty who is breathing normally
- Be able to manage an unresponsive casualty who is not breathing normally
- Be able to recognise and assist a casualty who is choking
- Be able to manage a casualty with external bleeding
- Be able to administer first aid to a casualty with injuries to bones, muscles and joints
- Be able to administer First Aid to a casualty with suspected head and spinal injuries
- Be able to administer First Aid to a casualty with suspected chest injuries
- Be able to administer First Aid to a casualty with burns and scalds
- Be able to administer First Aid to a casualty with an eye injury
- Be able to administer First Aid to a casualty with sudden poisoning
- Be able to administer First Aid to a casualty with anaphylaxis
- Be able to provide First Aid to a casualty with suspected major illness

Participants

A maximum of 12 learners are allowed per instructor and must be a minimum of 14 years of age. An individual cannot assume a responsibility in the workplace until they reach the age of 16, and then it is the employer's responsibility to ensure that the student is suitable for that role. The qualification will expire as dated on the certificate, irrespective of age.

Certification

Assessment is ongoing by the instructor, along with a multiple choice question paper after each day, and a three-year qualification will be issued to those who satisfy the criteria. In addition, the HSE strongly recommend that all students undergo an annual refresher programme of three hours.
